SALVATION—confirm it personally and tools to help you share it

As Jesus reminded us when He said, "And what does it profit a person to gain the whole world and lose their soul?" (Mark 8:36), if we don't know we are saved and how to share that good news with others, nothing else in this catalog of Bible lessons, what we learn, or what we teach, matters. Carefully consider this section first and make it a priority in your life and teaching.

The Trinity and the Nature of God

It cannot be emphasized enough, ***our God wants to be known***—look at what He's done through all creation, throughout His Word, and finally in Jesus coming as human—our God has gone to extraordinary lengths to help us understand Him. At the core of this understanding is the truth of the Trinity, which is not difficult to understand when we step away from all the complex philosophy and convoluted theological language about it and simply look at what the Bible says about it as these lessons attempt to do.

TRUST the Bible

Why We Can Trust the Bible—a series of lessons, intro video

The creation of this series was motivated by a challenge to show how the Bible was of divine origin without the circular reasoning of quoting Bible verses to prove the Bible. Based on my training as a historian, I used secular methods of historical verification to show how the uniqueness of our Bibles could only have a divine origin.
